MITRED DOORS

# the CUSTOMIZED LOOK you want

The trend of mitred doors has grown dramatically. If your customer is looking for a traditional style, we offer numerous mitred door designs, from simple

to quite ornate. If your customer is looking for a contemporary style, a custom glass insert in our mitred aluminum door would be a good choice.

SLAB DOORS

GLASS FRAMES

THE RIGHT LOOK  
*begins with the right wood.*

Wood is a natural product possessing many unique traits which makes it beautiful and desirable in itself.

*create A FOCAL POINT in any room*

Use glass frame doors with or without mullions to show off collections of crystal or china behind beautifully backlit arched doors. Our mullion style doors come in several configurations including nine lites.

*For a complete listing of materials and grades please contact customer care.*

FACE FRAMES

# the PERSONAL touch

To accommodate the changing market, Cabinet Components offers assembled or unassembled custom face frames. All of the face frames are manufactured with a pocket screw joint. Beaded

face frames are produced with a moulded beaded face frame stock and feature a haunched joint construction.

BEADED FACE FRAME PROFILE HAUNCHED JOINT

POCKET SCREW JOINT

**DECORATIVE PIECES** // Complement a room by adding an intricate decorative piece that will enhance any room's theme.

**WAINSCOTING** // Beaded panels are a creative way to apply wainscoting.

**FLUTES** // Partial and full flutes add a personalized accent to any room.

**CROWN MOULDING** // With a little imagination and some crown moulding, there are no limits to what can be done to a room. Add crown moulding to a room that has multiple angles and you can turn that room into a dramatic masterpiece. We offer several profiles of mouldings in many species of wood that can be finished in a vast number of stains, allowing nearly unlimited options for your customers.

## from START TO FINISH

Cabinet Components offers high quality finishes of doors, drawer fronts, drawer boxes and cabinets. Custom colors, finish matches, glazing and distressing are all available upon request. For our complete finishing options, refer to our stain sample box. If you do not have a box of samples, please call customer care and order your samples.

## simple & EFFICIENT

### CABINETPAC™

Efficiency is the most important part of any business. Ordering parts from different manufacturers to complete a single job is very inefficient. Thankfully, there's an answer. CabinetPacs™ from Cabinet Components allow you to order a complete set of custom cabinets with the needed components in one easy, stress-free step. Doors, drawer fronts, drawer boxes, face frames, and case parts are manufactured and delivered to you in approximately two weeks. CabinetPacs are your answer to increased efficiency. Contact our customer care team to learn more about CabinetPacs.

- > Allows cabinetmakers to focus on design, detail and installation.
- > Significantly increases production without additional overhead expenses.
- > Provides precision machined parts that fit right and assemble fast.
- > Reduces shop time and allows for more time to focus on customers.
- > Reduces skilled labor.
- > Allows lower workers comp classification.
- > Provides fast project turn-a-round from drawings through delivery.

# OUR *promise to you*

Trends within the building and remodeling industry are ever changing. To stay on the cutting edge, a cabinetmaker must continually monitor consumer trends and evaluate new equipment releases. Time spent researching and evaluating will leave you with less time to spend on your customer and will hinder you from finding new customers and expanding your business. Purchasing from us will lessen the risks you face day to day, allowing you to focus on sales and customer service and give you a significant competitive edge.

Whether purchasing a single door or a CabinetPac™, our customer care department is waiting to assist you. We will provide you with quality products in short lead times that are competitively priced.
